Organisation / Company

01 Overview

Your SMS platform gives you a clean, working tool that handles everything you need — sending messages, managing contacts, and setting up automated reminders. Here's what's included:

Clean, Mobile-Friendly Design

Included

A polished dashboard that works beautifully on both phone and desktop. No clutter — just the tools you need, laid out in a way that's easy to pick up and use from day one.

Bulk SMS Sending

Included

Send messages to your full contact list or paste in a custom group of numbers. You'll see delivery confirmations after every send so you always know what went through.

Message Templates

Included

Save your most-used messages as templates — promotions, appointment reminders, alerts — so your team isn't retyping the same thing every time.

Automated Reminders

Included

Schedule messages to go out automatically on birthdays, anniversaries, or appointment dates. Set it once and let the system handle it.

Contact Management

Included

Upload your contact list, organise people into groups, and keep everything in one place. Import from a spreadsheet in seconds.

Login & User Access

Included

Secure login with password protection. You can set up separate access levels — admins can manage everything, while regular users have a more limited view.

Hosting & Setup

Included

Everything lives on one reliable hosting platform. We handle the setup, the security certificate (so your site runs on https://), and the go-live process. You don't touch anything technical.

Have something extra in mind? Things like WhatsApp messaging, email campaigns, or connecting with your existing tools can all be scoped and quoted separately — just ask.

02 SMS Credit Plans

SMS credits are what you use to actually send messages — think of them like airtime for your platform. You top up whenever you need more. The more you buy at once, the cheaper each message becomes.

Pay as You Go (3-Month Validity)

No Expiry (Credits Never Lapse)

TOP-UP AMOUNT (GHS)	MESSAGES YOU GET	COST PER MESSAGE	VALIDITY
28	645	GHS 0.043	No Expiry
70	1,667	GHS 0.042	No Expiry
140	3,448	GHS 0.041	No Expiry
280	7,143	GHS 0.039	No Expiry
700	18,519	GHS 0.038	No Expiry
1,400	38,462	GHS 0.036	No Expiry
2,800	80,000	GHS 0.035	No Expiry
7,000	208,333	GHS 0.035	No Expiry

⬆ Credits are charged only when you send. Unused credits on the No Expiry plan never disappear. For high-volume needs above GHS 7,000, we can negotiate a custom rate.

03 Development Breakdown

Here's exactly what goes into building your platform and what each component costs.

WHAT WE'RE BUILDING	COST
Dashboard Design & Layout Mobile-friendly interface your team will use daily	GHS 700
SMS Sending & Contact Management Bulk sending, contact upload, delivery confirmation	GHS 900
Automated Reminders & Scheduling Birthday, appointment, and recurring message triggers	GHS 500
Templates, Login & User Roles Save messages, manage who has access to what	GHS 400
Hosting Setup & Go-Live Everything configured, tested, and launched	GHS 200

📈 INVESTMENT SUMMARY	
Development	GHS 2,700
Starter SMS Credits (recommended)	GHS 280
VAT (if applicable)	TBD
Total Investment	GHS 2,980

* SMS credits are charged based on usage. Monthly hosting costs (typically GHS 70–100/mo after the free tier) are not included in the development fee. Development fees are fixed as quoted.

04 Terms & Conditions

➤ This quote is valid for **30 days** from the date of issue (13 May 2026).

- > A **50% deposit** is required to begin work. The remaining 50% is due when the project is delivered to you.
- > Build time is approximately **2–3 weeks**, starting from the day we kick off — provided we receive your feedback and approvals on time.
- > Hosting and domain costs are **not included** in the development fee — these are usually low (GHS 70–100/month) and billed directly to you.
- > **30 days of free support** after launch — if anything breaks or behaves unexpectedly, we fix it at no cost.
- > Any features outside this scope will be **quoted separately** before any work begins.
- > Everything we build — the design, the code, and your data — becomes **fully yours** once final payment is made.

Thank you for your business.
